# TaTa Cat Tales

## ***I fell in love....***

With those four words our fellow club member Keith Boughton of Grand Junction starts his story. This is the first part but you will have to wait until the April issue to get to the end. Read and enjoy.

*...I fell in love with an E-type FHC when I was 11 years old (1964). Eventually I had a crush on a younger cousin the Lotus Europa. But that was a heart break for another time. I always returned to my first love.*

*At age 6, at the farm where I grew up, I swung out of the hayloft on a rope I made of bailing twine. I think I had just seen The Flame and the Arrow, some swash buckler, or maybe a Tarzan movie and, inspired, put the twine in my mouth to swing out of the second story. It ripped my teeth pretty good. My upper front teeth were transformed into an upper lip rest that prevented the important chewing-with-mouth-closed so vital to developing social skills at lunch. I had orthodontic treatments in the great town of Pueblo from fifth grade (10) to freshman in College ( 17). Other things besides food fell out of my mouth and still do.*

*My mother, not wanting to be seen with a social pariah, would leave me with the orthodontist at 8:00 am in the Thatcher building every month for one morning on a mid-week day for the next several years (until I learned to drive the 1964 Buick Wildcat thin pillar sedan or the 1968 IHC ½ ton truck and got there myself) and then leave me. She would go shop, usually at J.C. Penny's across the street (which didn't open till 9:00 but the longer she was away the happier she seemed to be). The upside for me was I was guaranteed a day off from playground harassment nine days out of the school year and discovered that I was responsible for my education anyway – who needed school, or the other students or the teachers. I was that famed autodidact Alice Cooper's inspiration – I think.*

*Well the deal was that when I was done with the dentist (parenthetically I thought I would grow up to be a dentist but I never developed the hairy hands, fat fingers and bad breath nor the desire to converse with pliers in a fellow's mouth) – as I was relating -- when the Steve Martin pantomime was finished, I would go to Owen Faricy Motors across from the Thatcher building. It was the Jaguar dealer. There I waited for mom, looking at cars and reading the literature.*

*My first love was the series one FHC. Those three windshield wipers and the headlamp covers, with their come hither look promised never to say, in response to: Q. "would you like to go to a movie with me?" --A. "No I'm kind-a going steady and I need to wash my hair." That constant faithfulness and unconditional love from the Jaguar for a mere \$6400 (including transportation and dealer prep) meant so much to me; more than the magazine under my bed. I mean, the ad in Boy's Life: "at 60 the throttle is not even half open" and the passenger seat always full, let me know that if I just could learn the rule against perpetuities and the rule in Shelly's case, and the ancient ceremony of "livery of seisin" then I could go to a movie with a girl. Because by then I could chew with my mouth closed and own a Jaguar.*

### Jaguar Club Southern Colorado (JCSC)

Jack Humphrey, President 719-596-1606 [jagluver2@cs.com](mailto:jagluver2@cs.com)

General Meeting on 3rd Tuesday of the month at the Jaguar/Land Rover dealership in Colorado Springs. JCSC events are included in our event schedule.

## Presidents Page by Howard Mumm

Sitting here on a Sunday afternoon with 12 inches of partly cloudy in the driveway wishing we were at the Daytona 500...well, maybe not the front row.

Thank you and kudos to Frank and Jean Oakley for hosting our first board meeting of the New Year. Dinner was great, or so I hear, and thanks to Bob Grossman, Mr. VP, for standing in for me while I was traveling.

We celebrated Fat Tuesday in style, replete with beads and festive cupcakes. The highlight of the evening was the famous "Year in Review" presentation by none other than our Newsletter Editor/Historian, the multi-talented Mr. Gordon Kenney. We Thank you. Watching the fun presentation made me realize once again how quickly our events and the year passes by. Don't miss a minute of the fun planned for 2013.

President's Dinner is March 9 and I'm looking forward to honoring our longtime members! There is still time to attend, just go online or call me and let me know you plan to join us. Don't forget that there is no general meeting at Piccolo's in March.

I've been receiving some great recollections of participation from some of our members. Send me your stories and anecdotes about your time in the club. I want to hear about what made you join the club, about the Jaguars you have owned and any stories you would like to share.

AGM is a few weeks away. Have you ever attended? Steve and Deanie Kennedy and Rob

van Westenberg will be attending as our delegates and for those of you that do not keep tabs on the club, we are even more fortunate to have them as they are elected JCNA officers and our SW region representative. Should you have any issues you want taken to the AGM, let your delegates know.

The Event Calendar that Gordon keeps updated is getting full and events are coming up fast! Get those little jobs and fixes done in your house so you can do the same in your garage. I invite you to get serious about the upcoming events, mark your calendar and make it a point to participate in as many as possible. Before you know it, the May 19 Spring Dust-Off surprise drive will be here!

Believe it or not, but our 2013 Peak 9 Concours d' Elegance is only 4 months away. It's not too early to make your reservations in Breckenridge. Check out the flyer in this issue! More details, the agenda and the registration form can be downloaded from the website. Remember, it's easy to register online and save the paper and stamp. Think about it, it's Breckenridge, Colorado with all that it has to offer. We have fabulous rates at a first class resort so invite your family and friends to join in for the weekend. Or extend it through the July 4<sup>th</sup> holiday. Let's have 50 cars this year!!

Not looking forward to more snow blowing.... Take the leap...

*Howard*

### ***New Member Orientation April***

This is a great event for new or slightly new members. You will get the opportunity to meet many of the club's board members as well as other new members in Rocky Mountain Jaguar Club. We have held these events for the last four years the new members seemed to really enjoy Gordon Kenny's presentation and commentary about the local and national club and the different events that are held each year. This gives you an opportunity to find out about all the different events we hold during the year and to ask any questions you may have about the club.

We will be serving appetizers and beer and wine so please plan on attending this event to learn more about the club and to meet some of the members.

Please RSVP to Deanie by April 12<sup>th</sup> so I know how many to plan on.

*Then my mom would pick me up mid-morning, or closer to noon, at Owen Faricy Motors . We then went to Shakey's Pizza on highway 96 heading out of Pueblo to the west where years later John Gotte's family would eventually own land so they could be close to the federal prison in Florence for business (deductible trips from New York) and visits. We ordered medium, shrimp, thin-crust pizza. I had root beer. She had Michelob Dark and explained that since the foam on the head was white, not creamy or dark, that the color of the beer itself was probably the result of food dye, not roasted barley. Michelob Dark was a crummy fake. True beers from England or Ireland that had genuine dark liquid had dark foam because of genuine dark barley. This I learned in the fifth through seventh grades, while my maternal grandma taught me to brew with baker's yeast, Pabst Blue Ribbon canned malt, sucrose, and hop tea from the health food store (it was awful and explains how prohibition twisted the good taste of America for decent alcohol and sound political argument). From this I grew closer to the XKE knowing the British would never fake a car any more than my mom said they would fake a barley beverage with food coloring.*

**Save the Date for a Mini Vacation!!** Plan to join us for a weekend Concours! Beaver Run Resort offers a picturesque setting at the base of Peak 9 with unique amenities of an indoor/outdoor pool, a state of the art work out facility, newly renovated rooms, hot tubs, and a world class spa. Beaver Run is also known for having top bars and restaurants in the area. This historic town of Breckenridge offers many recreational opportunities that can be enjoyed by the whole family. Consider coming up early or extend your mini vacation into the July 4<sup>th</sup> celebration.

The Concours weekend fun starts on Friday, June 28, when you check in to your lovely room or suite at Beaver Run Resort and admire the beauty that surrounds you. Of importance to all Cat owners, everyone gets underground parking. You will then join us for registration with a welcome reception of lively conversation, drinks, appetizers and music at Base Nine Bar and Restaurant. Dinner will be on your own in nearby downtown Breckenridge. Go explore!

Saturday, June 29, we have planned a very relaxing Concours Day, as all activities and meals for the day are merely a few steps apart. On Saturday morning, we will drive our Jaguars literally across the street and into Spencer's parking lot reserved exclusively for our club for the day. Shine up your cat and enjoy breakfast and lunch at your leisure. We will have a lovely patio replete with bar and meal service provided from Spencer's all day! Plan to bring your "historic dress whites" for very competitive rounds of croquet on the grounds in the afternoon right next to the Concours and patio. As the day winds down, you will have time to relax before meeting everyone for evening cocktails and dinner together at Spencer's Restaurant.

On Sunday morning, June 30, we've planned a scrumptious brunch to set the stage for the Awards Presentation with beautiful views from the third floor in the Coppertop III Room. For those staying over the holiday weekend, the resort will honor our special discounted rates from June 24 – July 7!

**Book your Accommodations Now!!** It's already time to start making your vacation plans and the first step is securing your reservations! Beaver Run Reservations can be made via phone or online. Call Beaver Run on 1-800-525-2253 and ask for Rocky Mountain Jaguar Club group rates. To Book online, go to: [www.beaverrun.com](http://www.beaverrun.com) and use the password JAG1LQ to access great negotiated rates for the group; rates good through May 25. We highly recommend you request a room in Building 2 or 3 which is the most convenient to our weekend of events, the garage, the walkover bridge and the main lobby. There is designated parking for trailers too. We recommend these rooms for the best rates and location:

Standard Hotel Room - \$110    One Bedroom Suite/Full Kitchen - \$125    Two Bedroom Suite / Full Kitchen - \$185  
Two bedroom is on one level with 1 queen suite bedroom and an attached hotel room with 2 Queens)

# *The Racing Beat* by Bob Grossman

## **Grand-Am Rolex 24 Hours at Daytona**

The racing season gets flagged off NOW  
January 26-28, 2013

OMG the racing season's underway already. Daytona Prototypes, GX and GT sports racers practiced in Jan to wring out the cars and drivers.

GT series is primarily race prepared standard bodied sports cars like Porsche GT3s and Corvettes but also includes Audi R8 Daytonas, Corvettes, Camaro GT.R, maybe a Viper and some BMW M3s.

The new GX class includes entries like the Porsche Cayman and Mazda6 and includes 6 cylinder gasoline engines and high output turbocharged 4 cylinder diesels.

Added to the program this year is the longest running single marque race, The Ferrari Challenge series, the gentleman owned, dealer prepped and sponsored Ferrari 458s. This class is a worthy addition to the card with super rivalries, color, great cars and action. A couple of highly modified 458s will be running in the GT series.

Approximately 25 drivers from around the globe, racing 70+ entries make this race a truly international, 24 hour, intermarque megabash.

So, silly season fallout in F1:  
Vettel and Webber for RBR  
Alonso and Massa for Ferrari  
Button and Perez for McLaren  
Raikkonen and Grojean for Lotus  
Rosberg and Hamilton for Mercedes  
Nico Hulkenberg and Esteban Gutierrez for Sauber  
Di Resta and ??? for Force India  
Maldonado and Valtteri Bottas for Williams  
Daniel Ricciardo and Vergne for Scuderia Toro Rosso  
Charles Pic and ??? for Caterham  
Timo Glock and Max Chilton for Marussia  
HRT – dead and broke  
IndyCar – new leadership for total confusion  
NASCAR – struggling

ALL OUT, FIRE BREATHING, FENDER BENDER,  
HEART POUNDING, NO FEAR RACING ACTION  
FROM DOWNUNDER V8 SUPERCARS!!!  
MAY 17-19 COTA – 3 DAY RESERVED SEAT  
PASSES FROM \$83!! Road Trip?

All this and more and my trusty '64 E-Type Coupe slalom car still hasn't gotten its roadworthiness validations done following the improvements which will take it from HSP to Modified Light.. Anybody got sets of 9" 300 and 325 lb/in rear coils?

## *Alternative Autos* by Gordon Kenney

This month's I discuss one of the newest TYPE of alternative autos, the **Extended Range Electric Car** (powered by a battery driven electric motor with the battery recharged by plug-in charging or by an onboard gasoline powered alternator). Current examples are the **Fisker Karma** and the Chevrolet **VOLT**.

This is a report on my first few weeks experience owning a 2013 VOLT purchased Dec. 28 th with a full battery charge and the 9.3 gallon gas tank full. The range on battery only is about 40 miles (better than the EPA number of 38 miles/charge) and the gasoline powered generator comes on for longer drives. Between then and Feb. 16 (7 weeks) we drove it 1,350 miles. It used 7.7 gallons of gasoline (\$30.15) and 394 kilowatt-hrs of electricity (\$43.34) during overnight charges for a total fuel cost of \$73.49 or 5.4 cents/mile. Overall the 174 miles per gallon of gasoline is much better than the EPA estimate of 98 MPGe.

These types of cars are true Game-Changers as they allow driving using electricity generated by coal, natural gas, wind and sun - all energy resources our country has in plenty. Benefits of this technology include the contribution to energy independence and in reduction in balance-of-trade deficits. If driven 10,000 miles this year it will consume nearly 350 fewer gallons of gasoline than the Acura it replaced. The fact that fuel costs for the year will be about \$1,000 less is a nice bonus. Although "stickered" at over \$40k VOLTS can be purchased in Colorado for net costs in the mid 20's due to rebates and discounts available.

## Collector Car Council of Colorado Meeting, February 6<sup>th</sup>, 2013

**Legislative issues:** Leo Boyle described Colorado House Bill 131071 introduced by Representative Holbert from Douglas County. 1071 proposes a new category of collector series vehicles, at least 32 years of age (rather than the current pre-1976 vintage). Amendments have been proposed that would add an emission test in AIR regions every five years and payment of full five years of bridge and road safety surcharges. The fiscal analysis is not completed. After lengthy discussion, it was moved that the CCCC move from a neutral position to opposition of HB 13-1071. The motion was defeated by a vote of 25 in favor and 30 opposed. It is imperative that the CCCC not lose current eligibility status for collector series vehicles. Leo will follow the progress of 1071 through additional committee hearings and keep the CCCC advised.

## Appraisals “by George”

In my appraisal business I deal a lot with hot rods, street rods, customs, low riders, sports cars, etc., in short with toys. Many are built at least in part by the owners and friends. These are unique cars which in many cases that can't be duplicated in the open market. Valuing these vehicles can be a challenge.

Many insurance companies are asking for appraisals before they will cover them. You may

say I know the value after my friend Bill told me over a couple of beers (well your friend Bills opinion of value won't hold up if you have a claim). Well nothing is going to happen to my car and besides I keep it in the garage and I have home owners insurance, (but it doesn't cover your cars). It can't happen to me (tell that to the victims of the recent fires and floods). If you have a special car keep your title, receipts and appraisal in some safe, fire, and flood proof place.

## What's New with Jaguar

### Jaguar XF and XJ 3.0 AWD

Jag builds a couple of Artic cats, if you live in Southern California or Florida, Jags two best markets, an all-wheel drive jag is as useless as a chocolate tea pot. But if you live in the Northeast, it's a different matter. Jag needs this all-weather option. The price leading XF and XJ get it for an extra \$3000 to \$3500. It comes in both cars with the new super charged 3.0 liter V-6 that pulls 340 horsepower. Neither the XF or XJ was originally designed for this electronic front drive system; and by the way it mimics the BMW's Drive.

Jaguar has tuned the system with its three driver selectable control settings for rear bias. Through Quebec Canada's snowy forests, (where these were first tested) the now have softer springs and dampers across the line up supply pampering. The AWD computer stays ahead by watching the driver's inputs.

With the all-wheel drive, they have turned XF and XJ into a pair of Artic Cats that claw into snow and ice.

Personal Note: This month's article sounds familiar about the all-wheeled drive Jaguars. This is due to the fact that we have bought a different home and are undergoing extensive remodeling. So our time has been limited this month. Art has been putting in 18 hour days in with his regular job and working at the house. We will be moving soon, and look forward to talking to you next month. Until then, keep those cats purring.
